

X-CALIBRE

The next generation inspection data solution
to empower your product decisions

X-Calibre provides a customer service tool that captures CR product inspections to track performance and wear data.

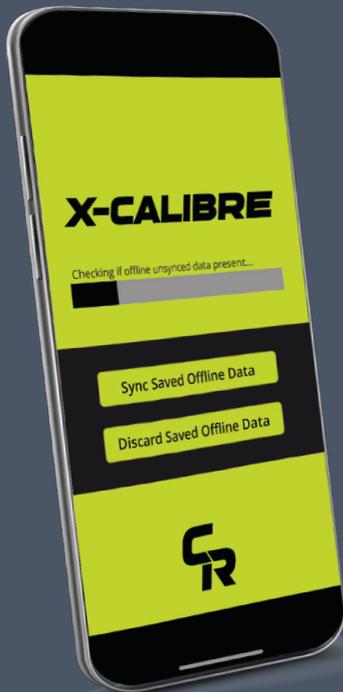

- ✔ GET and cast lip monitoring
- ✔ Faster reports
- ✔ Quicker inspections

PRODUCT MONITORING & REPORTING

The X-Calibre platform is a CR Mining initiative that allows CR's technical experts to provide improved customer service. X-Calibre is a mobile app created specifically to collect inspection data for CR products on site.

Both operational and non-operational product located on site will be monitored to ensure both CR and CR's customers are up to date with the latest product performance data.

Accessing X-Calibre

- Your CR representative is already equipped with and using X-Calibre
- X-Calibre is FREE with any* CR product purchase

*Talk to your CR representative for more information.

Better, quicker data empowers the customer to make confident actionable decisions for your CR products, machines, and ultimately your mine site.

The new X-Calibre inspection platform provides:

- ✓ Quicker inspections
- ✓ Faster reports
- ✓ Performance and wear analysis through long term data collection in a central location
- ✓ Machine and product monitoring

CR Mining is on a mission to revolutionize mining productivity.

We engineer the most advanced surface and underground mining solutions for the world's best miners to unlock productivity, enhance safety, and reduce maintenance requirements.
