

UNIVERSAL LIFTING SOLUTION

Designed to work with any GET under 750kg,
making the maintenance process faster and safer.

The Universal Lifting Solution can lift all CR GET. The simple, easy to use design provides a safe and consistent lifting solution that works without improvisation or additional tooling.

- Eliminates unreliable slings and other improvised lifting devices
- Works with all GET regardless of size, condition, or manufacturer
- Rated load limit of 750kg (1,653lbs) to lift all CR GET
- Compact and easy to use – no additional tooling required

THE PROVEN SOLUTION

Key Features and Benefits

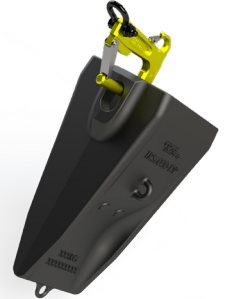

Safety is at Our Core

With a core value of Zero Harm, CR is dedicated to preventing injuries and incidents. GET can be heavy and awkward to handle, especially when worn. Studies have shown up to 32% of injuries in surface mining are caused by strenuous movements. By eliminating unreliable slings and other improvised lifting devices, the universal lifting solution prevents flings and drops, reducing safety hazards and keeping our customers safe.

UP TO
32% of injuries in surface mining occur due to strenuous movements.

THOROUGHLY UNIVERSAL

Our universal lifting tool can lift any GET, from teeth to shrouds and everything in between. Regardless of size, manufacturer, or condition, it's ready for the task at hand.

A SAFETY SOLUTION FOR ALL

We know that not every mine site has access to additional safety equipment. The universal lifting solution is a compact safety device that works with any D-shackle configuration with no tooling required.

STRONG AND POWERFUL

The universal lifting hook makes moving heavy GET a breeze. Multiple hook sizes can handle any application, and with a load limit of 750kg (1,653lbs) no component is out of reach.

*750kg capacity of large hook.
Small hook capacity of 530kg.

WILL FIT ANY GET
UP TO
750KG

CR Mining is on a mission to revolutionize mining productivity.

We engineer the most advanced surface and underground mining solutions for the world's best miners to unlock productivity, enhance safety, and reduce maintenance requirements.
