

The Proven Solution

Key Features and Benefits

Safety is at Our Core

With a core value of Zero Harm, CR is dedicated to preventing injuries and incidents. GET can be heavy and awkward to handle, especially when worn. Studies have shown up to 32% of injuries in surface mining are caused by strenuous movements. By eliminating unreliable slings and other improvised lifting devices, the universal lifting solution prevents flings and drops, reducing safety hazards and keeping our customers safe.

Thoroughly Universal

Our universal lifting tool can lift any GET, from teeth to shrouds and everything in between. Regardless of size, manufacturer, or condition, it's ready for the task at hand.

UP TO

of injuries in surface mining occur due to strenuous movements.

A Safety Solution For All

We know that not every mine site has access to additional safety equipment. The universal lifting solution is a compact safety device that works with any D-shackle configuration with no tooling required.

WILL FIT ANY GET

750kg

Strong and Powerful

The universal lifting hook makes moving heavy GET a breeze. Multiple hooksizes can handle any application, and with a load limit of 750kg (1,653lbs) no component is out of reach.

CR Powered by Epiroc is on a mission to revolutionize mining productivity.

750kg capacity of large hook. Small hook capacity of 530kg.

We engineer the most advanced surface and underground mining solutions for the world's best miners to unlock productivity, enhance safety, and reduce emissions.
