

## Total Bucket Solution

For over 40 years, CR Powered by Epiroc has been a trusted partner supplying hardware and technology to miners worldwide. Our complete bucket solution covers cast lips and GET for hydraulic excavators, wheel loaders and rope shovels, wear protection and GET loss detection technology.

We're on a mission to revolutionize mining with data. We engineer advanced solutions to unlock productivity, enhance safety, and reduce carbon emissions.

## Why Choose CR's Total Bucket Solution?

### Results-Driven Lips

Cast in one single piece, CR's lips are up to 8% stronger and 6% lighter than traditional plate lips, resulting in up to 13% less dig energy, in turn reducing carbon emissions.

### Reliable GET Loss Detection Technology

GET Trakka™, our sensor-based GET loss detection system, provides rapid and reliable alarms, avoiding dangerous and costly crusher events, along with the ability to locate lost GET.

### Toughest Wear Protection

Our Domite® (also known as Laminite®) range offers maximum abrasion-resistant wear products, extending bucket life with up to six times longer wear life than conventional wear liners.

## Cast Lips For Every Condition

We are the GET experts, providing lip systems and ground engaging tools (GET) for hydraulic excavators, wheel loaders, and electric rope shovels, along with essential wear parts and GET loss detection technology.

 <p><b>Lips and GET Systems</b></p> <p><b>RAZEREDGE™</b> <b>STINGRAY™</b></p> <p><b>Cast Lips for Excavators</b> Efficiency and productivity</p>	 <p><b>DECAEDGE™</b></p> <p><b>Cast Lips for Wheel Loaders</b> Diggability and availability</p>

### CR Powered by Epiroc is on a mission to revolutionize mining productivity.

We engineer the most advanced surface and underground mining solutions for the world's best miners to unlock productivity, enhance safety, and reduce emissions.
